IN THE DARK AS TO AFFAIRS OF BANK

Boydton Institution Closed Two Weeks, but Creditors Do Not Know Conditions.

[Special to The Times-Dispatch.]
BOYDTON, Va., April 25.—The meeting of the creditors of the Bank of Boydton, held here yesterday, accomplished but little, if anything, in the way of adjusting the tangled affairs of the bank.

The plan of the creditors was to try and secure control of the management of the bank, through Judge Barksdale, and instead of the receivers, to substitute a committee of their own, who would undertake the work for less than the amount allowed the receivers, and then authorize the committee to employ counsel, at a contract price, and in this way to largely reduce the cost of administration and settle up the business at an earlier date; but there are so many creditors, who entertain different views, which must be reconciled, and, again, there are so many fraudulent and public officers whose true funds are in this bank, who do not feel authorized to make any concessions or compromises, unless it is sanctioned by the court, that it would seem at present impossible to accomplish the ends for which this meeting was called. The meeting appointed a committee of seven to confer with the creditors and get them to pool their interests, and all work together for their common good.

The most level-headed men among the creditors see the insurmountable difficulties in the way of carrying out this plan, and believe that, after all, it is best to let the regularly appointed receivers go on with their work under the watchful eye and supervision of Judge Barksdale, who has given assurance that he will guard closely the interests of the depositors and have

the affairs of the bank economically administered. It has been two weeks to-day since the bank did business, and yet the depositors are in the dark as to how matters stand, as no report has been given out to the public by Mr. Boudar, the expert accountant, although it is generally known that he has finished his examination of the books, but has not yet completed his report.

Mr. Lucius Gregory, who was appointed one of the receivers, declined to serve when he learned that the cashier of the branch of the Bank of Mecklenburg at Chase City had also paid over to him the knowledge of the president or directors.

FARMVILLE TO HAVE A BOARD OF TRADE

Room for New Industries and More Business to Be the Watchword.

[Special to The Times-Dispatch.]
FARMVILLE, Va., April 25.—A movement has been started here for the organization of a board of trade, the business of which will be to exploit the advantages of Farmville as a business and manufacturing center. Farmville is now one of the leading tobacco markets of the State, and there are other industries here that make it one among the liveliest towns in this section of the country, but there is room for many new industries, and what is needed to make the town great as a business center is diversity of enterprises. It is realized that tobacco alone will not make a town great. There is no better location in the State than Farmville for spoke and handle factories and other wood-working establishments. A wide-awake board of trade, it is believed, is the agency to bring new enterprises here.

RICHMOND TO HAVE A NEW SANATORIUM

Dr. J. C. Walton Moves to This City to Establish Health Resort.

MURPHY'S ANNEX CHANGED

Complete Systems of Hydrotherapy and Electrotherapy.

Soon after the completion of the Eighth-Grace Street annex to Murphy's Hotel, it was suggested to Colonel John Murphy that the house would make an ideal sanatorium, and that although he and the architects who planned the structure did not at the time dream of such a thing, the fact is that the building as it now stands is splendidly arranged for that purpose. It was further suggested that the magnificent artesian well on the premises, furnishing an abundant supply of pure water for douche rooms and for all other purposes, would be a valuable asset to a sanatorium. Nothing more was said on the subject, but Colonel Murphy, who is ever alive to Richmond's general interest and ever ready to do all in his power to bring something new and valuable to town, gave the matter a great deal of thought and commenced to look about to find the right man for the place.

He has finally succeeded in inducing Dr. J. C. Walton to come to Richmond and establish and equip a modern sanatorium for the treatment of chronic medical cases of all kinds, except tuberculosis and insanity. Dr. Walton is a native of North Carolina. For years he has been the resident physician at the Mecklenburg, and he is probably the best known and most successful health resort physician in the South. He has for the past several years given his undivided study and thought to the treatment of the class of diseases that he purposes to treat in the Grace Street Sanatorium. Modern Equipment.

Dr. Walton has moved to Richmond and is now arranging the sanatorium in a part of the building, which is a fireproof building, and equipping it with all of the modern paraphernalia known to that branch of medical science. On the basement floor, fronting on Grace Street and also with an eighth Street entrance, will be provided elegant private bath and douche rooms. These will be lined with Italian marble and every appliance necessary to make them the most elegant and useful in the Southern country will be supplied. The sanatorium will be equipped with a complete system of hydrotherapy, including the improved Baruch and Nannheim systems of baths, with electric light baths and a complete system of electrotherapy, with skilled attendants massaging, etc., in constant attendance. The institution will be first-class in every respect.

As before stated, the credit of bringing this institution to Richmond, where medical schools and hospitals have already given the city a reputation far and near, belongs to Colonel Murphy, and it is no secret that in order to get it and the able physician who is to be in charge here, the colonel takes a financial interest in the establishment. He will also look after the material end of the institution and the creature comforts of the inmates. However, the sanatorium will be entirely separate from the hotel and the management entirely distinct. The major part of the building has already been installed, and the balance is being put in as rapidly as possible.

CITIZENS TO SPEND DAY PUTTING ROAD IN ORDER

[Special to The Times-Dispatch.]
WEST POINT, Va., April 25.—In this age of special days a plan is on foot in West Point to celebrate a road day. The idea is that all citizens shall turn out one day in May and spend the day putting the road from town out for several miles in the country in good order. This will be a kind of picnic or frolic and will or need not cost anything, and will result in much good.

THE VIRGINIA AIR LINE TO BUILD TO GORDONSVILLE

GORDONSVILLE, Va., April 25.—Capt. C. O. Troy has been directed by the Virginia Air Line Railway Company to put a right of way through the lands of Captain George Wright, near W. H. Jordan and J. J. Dovi just west of town. The Virginia Air Line Company contracted for this land for the purpose of extending their line from Lindsay to Gordonsville, and agrees to complete it within twelve months.

New Depot for Warrenton.
[Special to The Times-Dispatch.]
WARRENTON, Va., April 25.—The old depot which has been standing here for years is fast being torn down and in its place will be erected by the Southern Railway a modern structure with all modern conveniences. This improvement on the part of the railroad company will be a source of genuine appreciation on the part of the traveling public at this point.

ELKS BUILDING ABOUT COMPLETE

Important Addition to the Business Life of Newbern—Much Activity in Building.

[Special to The Times-Dispatch.]
NEWBERN, N. C., April 25.—The Elks' Building is about completed. Lights were turned on the whole building Tuesday night and the effect was watched by several hundred people who gathered on the streets. Mr. J. J. Baxter was the first to occupy the building. By May 1st the whole building will be ready for use and the electric elevator will be in service. The Elks expected to lay the corner-stone of the building as soon as it is completed, but a number of reasons have caused this to be postponed. The building is one of the prettiest in the State, five stories and a basement high, pressed brick fronts with terra cotta trimmings. The garden pea crop is being gathered and shipped. On Wednesday about 600 baskets were shipped, but the price is rather low, being quoted here at from 75 to 90 cents. A few strawberries have been shipped from here, but this is not much of a strawberry section, as nearly all of these grown here are used for home consumption.

The Elks will hold an Elks' Bazaar in the Armory on April 28th and with it a "baby show," a number of prizes are offered for various things. Refreshments are to be served to look after the financial end of the affair. The firm of G. S. Waters & Sons has purchased a tract of land on the west side of the town in which will be a large factory for building carriages, runabouts, automobiles, etc. They have

CAMPS ARE WARMLY CONGRATULATED

Activity at the Big Lumber Plant and Business Generally Active.

FRANKLIN, Va., April 25.—The decision rendered by Judge West at Lawrensville in the famous standing lumber suits were of great interest here at the home of the Camp Bros., the owners of large tracts of timber lands, and who were suing for their rights in the premises. That the decision was in their favor is a source of rejoicing. The immense lumber plant of the Camps here has increased its force recently, and is turning out more than the usual quantity of work. All of the Franklin merchants report improved spring trade as the weather begins to be more summery. The Retail Merchants' Association, our only trade organization now in active operation, is on the lookout for new industries, and its officers are in a position to offer special inducements to cotton mill men or any kind of wood-workers.

MUCH INQUIRY FOR SUSSEX COUNTY LAND

[Special to The Times-Dispatch.]
WAVELEY, Va., April 25.—The state factories here are working with full forces in order to keep up with new orders that are coming in for nailmaker staves. This is taken as evidence that a general resumption of business in various parts of the country is in progress. When the iron-working establishments and the nail factories are calling for material there is apt to be a general revival of trade. Real estate agencies here report increasing inquiry from the West and Northwest concerning Sussex and Surry county farm lands, and the indications are that more farms in these counties will be taken by new-comers this year than ever before.

BUSINESS ACTIVE DOWN IN WAKEFIELD

Big Peanut Factory Working Many Hands and Other Enterprises Flourishing.

[Special to The Times-Dispatch.]
WAKEFIELD, April 25.—Business of all kinds is active in Wakefield. The peanut factory is operating with more than the usual number of hands and the furniture factory is turning out a great deal of work and finding ready sale for it. The merchants report increased inquiry for Wakefield's supplies of "Smithfield" hams, and while their shipments are confined exclusively to Virginia markets, they have been larger this spring than usual so early in the season. The Bank of Surrey and Sussex reports business here active. Wakefield wants a cotton factory, and if all the signs of the times do not fail it will have one before another year is added to the calendar of the new century.

WEDS A VIRGINIA MAN.

Miss Julie Prevante, of Lumberton, N. C., married to Mr. Taylor.
[Special to The Times-Dispatch.]
LUMBERTON, N. C., April 25.—Miss Julie Prevante, of this city, and Mr. R. H. Taylor, of Beaver Dam, Va., were married at the home of the bride's parents Wednesday afternoon at 4 o'clock. The wedding was quite a pretty one. Miss Crowder, of the graded school, played the wedding march, and Rev. C. H. Durham, of the Baptist Church, acted as pastor. The bride, attended by the young couple left on the afternoon train for Beaver Dam, where they will make their future home.
House Blown Down.
[Special to The Times-Dispatch.]
ROANOKE, Va., April 25.—During a heavy windstorm, to-day, a large frame storehouse was blown down and several houses unroofed in Norwich, a suburb of the city.

Interesting

Some "Queen Quality" Shoe statistics are interesting. It's the largest factory of women's shoes in the world. Over 3600 hands are employed. The pay roll is \$12 a minute. The output is about one "Queen Quality" Shoe every second, or a retail cash business of \$100 a minute. The saving per year to the 3,000,000 women who wear "Queen Quality" Shoes is incalculable. Try them once.

Sole Agency
